Pets are an important part of people's lives. Yet sometimes, owners who are elderly, disabled, or on a fixed income find themselves unable to pay for their pet's medical care if the animal becomes seriously ill.

The RESPOND Fund is a resource for medical care for animals and their owners with special needs.

Because the School of Veterinary Medicine believes strongly in the human/animal bond and the benefits that pets bring to the sick, elderly, and disabled, we are committed to securing funding to help provide these animals with needed medical care. If you would like to donate please contact
